PRESIDENT'S REPORT

Andy Studdert
NES Rentals and IPAF President

Surpassing expectations and extending our reach

It is hard to believe it has been two years since I became President of IPAF. From the outset I hoped my tenure would see real progress, but the amount we've been able to achieve during that time has far exceeded my expectations and hopes.

The rollout and adoption of our eLearning platform is a great leap forward. While no change of this magnitude is done without some stress and complexity, I believe the organisation has accepted the new way of doing business extremely well, proving IPAF can evolve and respond to the changing needs of our customers worldwide.

With businesses changing at a rapid pace, I am sure IPAF will continue to utilise new technologies and extend our ability to train in multiple languages.

The changes made to IPAF's governance in 2015 are also showing results. These have given greater local control to members from all over the world through strong country and regional councils, while the IPAF Council has become the platform for discussion of topics with worldwide impact and significance.

While still a work in progress, I believe this new structure strikes the correct balance and allows IPAF to consider and respond appropriately to industry concerns locally, regionally and globally.

In almost a decade of being involved with IPAF, I have seen it evolve into a dynamic, forward-thinking organisation successfully fulfilling its mission statement to be the worldwide authority in powered access. All the best for the future – and stay safe.

The future's bright as we elevate to new heights

Last year was a momentous one for IPAF. We saw membership continue to grow in the UK and Ireland, and made strides in key overseas markets such as North America, the Gulf Region, Turkey and China.

Demand for IPAF-accredited training also rose to record levels, as new standards were drafted and companies sought to become compliance-ready. We can expect this demand will only increase in 2017 as the new North American standards are published. IPAF experts are closely involved in the development of these new standards, so as an organisation we are ideally placed to help companies get to grips with the new requirements and train their staff to operate safely and effectively.

It's been an exciting time in terms of the development of new digital tools to aid in training, such as the successful introduction of new eLearning modules that allow operators to complete the theory portion of their PAL Card training online. At the end of 2016 we also launched a Virtual Reality demo that takes users through a pre-use MEWP inspection via a headset using a compatible mobile device. It's an impressive application, offering up fascinating possibilities for technological advances in training and safety guidance.

Last year also saw us embark on our Elevate project of process improvement, utilising Lean Management principles to look at every area of our organisation to find ways to increase efficiency and productivity and to meet the rising demand for our services and expertise. It's been a revelatory journey that will allow us to build on the successes of recent years and forge a bright, confident future for IPAF, our members and the industry we represent.

CEO'S REPORT

Tim Whiteman
CEO & Managing Director, IPAF

IPAF AND ITS COUNCIL

The International Powered Access Federation (IPAF) promotes the safe and effective use of powered access equipment worldwide in the widest sense – through providing technical advice and information; through influencing and interpreting legislation and standards; and through safety initiatives and training programmes.

IPAF is a not-for-profit organisation owned by its members, which include manufacturers, rental companies, distributors, contractors and users. IPAF members operate a majority of the MEWP rental fleet worldwide and manufacture about 85% of platforms on the market.

Members enjoy access to practical information and a growing portfolio of member services. They also have the chance to influence the legislation and regulations that govern platform use.

A benefit of membership is the ability to deliver the IPAF training programme for platform operators,

which is certified by TÜV as conforming to ISO 18878. More than 150,000 operators are trained each year through a worldwide network of over 600 IPAF-approved training providers. Successful trainees are awarded the PAL Card (Powered Access Licence), the most widely held and recognised proof of quality-assured training for platform operators in the world.

The Federation's governing body is the IPAF Council, which is composed of the IPAF Board members, Committee chairpersons, Country/Regional Council chairpersons and five directly elected members. Council members are elected for a two-year period by IPAF members.

BOARD MEMBERS DURING 2016

President Andy Studdert, NES Rentals
Deputy President Nick Selley, AFI-Uplift
Vice President Brad Boehler, Skyjack
Managing Director & CEO Tim Whiteman, IPAF
Director Norty Turner, Riwal
Director Peter Douglas, Nationwide Platforms
Director Karin Nars, Dinolift
Director Karel Huijser, JLG

COUNCIL MEMBERS DURING 2016

Jacco de Kluyver Genie
Arne Dirckinck-Holmfeld PB Liftechnik
Enrique Garcia Delgado Snorkel
Kai Schliephake Partnerlift

Marcello Plonski Brasil
 RCB Locações de Equipamentos e Máquinas
Mark Winfield HSS

COMMITTEE CHAIRPERSONS DURING 2016

Chairperson, Manufacturers' Technical Committee
 Phillip Godding, JLG
Chairperson, Mast Climbing Work Platforms Committee
 Kevin O'Shea, Hydro Mobile
Chairperson, Training Committee
 Darren Verschuren, ALS Safety
Chairperson, IPAF Rental+ Committee
 Steven Gerrard, Lifterz
Chairperson, Brazilian Country Council
 Marcelo Racca, Haulotte Do Brasil
Chairperson, India Country Council
 Nitin Gokhale, Dynamic Crane Engineers
Chairperson, Irish Council
 Julie Smyth, Highway Plant

Chairperson, Italian Country Council
 Paolo Pianigiani, IMER Group
Chairperson, Netherlands Country Council
 Martijn Kamphuis, Kamphuis Hoogwerkers
Chairperson, North American Regional Council
 Teresa Kee, NES Rentals
Chairperson, Portuguese Country Council
 Paulo Martins, Machrent SA
Chairperson, Singapore Country Council
 Tomie Chan, Haulotte Singapore
Chairperson, Spanish Country Council
 Florencio Alonso, AP Aerial Platforms
Vice Chairperson, Swiss Country Council
 Arnaud Baumgartner, Accès & Elévatiqne SA
Chairperson, UAE Country Council
 Robert Cavaleri, Manlift Middle East
Chairperson, UK Country Council
 Brian Stead, Loxam Access

WORK OF THE COUNTRY AND REGIONAL COUNCILS

IPAF country and regional councils consider specific issues and make recommendations to the IPAF Council for further discussion and action. They also organise national and regional activities that underpin and promote the safe use of powered access. Activities of the various councils and their members last year included:

Members of the **Singapore Country Council** supported IPAF's participation in 23 events across Asia in 2016, standout events being the well-attended IPAF Asia Conference in Singapore in July and bauma China in Shanghai in November, while a MEWP safety seminar was organised for the first time in South Korea in conjunction with the Korea Occupational Safety and Health Agency. Singapore Standard SS 616:2016 code of practice for safe use of MEWPs was published on 15 November 2016, and IPAF also marked this with a launch event in Singapore.

Contact: sea@ipaf.org

The **Brazilian Country Council** held six meetings during 2016 and approved its three-year plan. The council focused on the review of the Brazilian regulation NR 18 and more recently the creation of a Brazilian Standard (ABNT) that will be based on the US Standards (ANSI). Members of the council committed to report any known MEWP and MCWP accidents at the IPAF accident database.

Contact: portugues@ipaf.org

The IPAF **Spanish Country Council** collaborated with OSALAN, the Basque Institute of Occupational Health & Safety, on a campaign to raise awareness about accident prevention during MEWP operation. The campaign was supported by a special series of safety posters featuring Andy Access, and was aimed at all staff and companies that manage safety in the workplace.

Contact: espana@ipaf.org

The **Irish Council's** last full council meeting in April 2016 saw a record turn-out and welcomed representatives from the Health & Safety Authority in Ireland. Elections were also held at the meeting for the next two-year term of chair and the new position of vice chair. The council also held its first Regional Meeting in October, presenting a good opportunity for networking. The council hopes to repeat this event.

Contact: info@ipaf.org

The **Swiss Country Council** consists of six members and met twice during 2016. The discussion at these meetings centred on the latest technical and safety developments, as well as new standards and best practice for safe MEWP operation. The Swiss Council has been running for three years, and in 2017 elections will be held to select a chairman.

Contact: basel@ipaf.org

Members of the **North American Regional Council** developed an updated three-year plan that will guide the actions of the council and maintain focus on key goals, including an offer of free educational webinars as a member benefit, encouraging members to participate in accident reporting, supporting key OSHA safety issues, and developing industry guidance on MEWP service technician qualifications. Involved in the drafting of new standards in the US and Canada, the council aims to raise awareness of the changes and impact within the industry.

Contact: usa@ipaf.org

The **UK Country Council** published guidance on loading and unloading MEWPs, and time was also spent drafting and consulting on new guidance related to IPAF's 'Spread the Load' campaign. The council agreed to introduce an audit for all UK rental members. Besides four regional meetings, a UK member event was held in November in Oxford. The council is working on establishing a communication strategy with PAL Card holders. Continuing the successful Andy Access poster campaign, the UK Country Council also began drafting 'toolbox talks' to support the messages from the posters.

Contact: info@ipaf.org

WORK OF THE COMMITTEES

The IPAF Training Committee is the custodian of IPAF's training programme and meets every three months to review issues related to course content, training material and training centre requirements. Updates in 2016 included:

A decision to roll out further New Generation (eLearning) training in the UK and internationally;

A new Pre-Delivery Inspection course was agreed upon;

A revised Harness course was also agreed;

Further developments to the requirements for Senior Instructor status were added;

A series of Andy Access 'toolbox talks' was commissioned;

A Virtual Reality Pre-Use Inspection App was specified for development into a working demo (pictured right).

The IPAF International Training Advisory Group meets twice yearly to discuss issues facing IPAF training centres and make recommendations to ensure the consistency of IPAF training worldwide. In 2016 a working group was set up to look at how IPAF's training committee structures could be developed internationally.

The IPAF Manufacturers' Technical Committee (MTC), including the **Vehicle-Mounted Manufacturers, Technical Committee (VMMTC)**, is one of the access industry's leading international groups. All manufacturer members of IPAF are entitled to be involved with the IPAF MTC and it is estimated that members account for in excess of 90% of global MEWP production.

Building on the success of 2015, the MTC continues to focus on the operational objectives 'listen... lead... communicate' set by the committee under the chairmanship of Phil Godding – Principal Product Safety and Reliability Engineer for JLG Inc.

The IPAF MTC continues to monitor and review proposed changes to legislation and standards relevant to MEWPs, including: The proposed changes to EC directives and standards relating to machine design, outdoor noise or emissions; the suite of new ANSI and Canadian standards; the continual review of EN280; the review of AS1418.10; proposed design requirements in Brazil; a new ISO standard considering human factors and ergonomics of MEWP control design. These were just some of the documents that have been under careful consideration by the IPAF MTC during the past year.

Through representation on the numerous working groups and committees drafting or reviewing these documents, the IPAF MTC has been working in partnership to improve MEWP design and safety with the strategic goal of driving global standardisation.

Under the guise of the MEWP Manufacturers Interest Group (MMIG), a collaboration with the US-based Association of Equipment Manufacturers (AEM) has enabled IPAF MTC members to further enhance the working relationship with the Elevated Work Platform Association (EWPA) and authorities in Australia. This will culminate in an event in Sydney in May 2017, where MMIG members will meet with Australian contractors, unions and regulators to discuss international developments in MEWP design and safe use and address issues of significance.

With the support and assistance of the IPAF technical department, the IPAF MTC has continued its pro-active collaboration with European Rental Association (ERA) and the European Materials Handling Federation (FEM) to minimise duplication while maximising expertise and resources in addressing industry concerns.

As well as the ongoing project considering the impact of global legislative changes on users and owners of equipment, work on other IPAF MTC projects includes:

Developing commonality of auxiliary lowering control identification;

Creating owner awareness of the necessity for open communication channels to obtain OEM service information and updates;

Increased communication with international bodies that may as yet be unaware of the IPAF MTC international collaboration projects.

The Vehicle-Mounted Manufacturers' Technical Committee held a meeting in Italy in November, at which a working group was formed to draft guidance on the remounting of equipment. Overall, 2016 saw a sustained effort by manufacturers to improve machine safety requirements and enhance a culture of collaboration with national authorities, standards bodies and associations on an international scale.

The IPAF Rental+ Committee

IPAF Rental+ is an independent quality mark awarded to member rental companies who have been audited to meet defined standards in customer service, safety, staff training, contract terms and machine inspection.

IPAF Rental+ committee members followed up on the mandate to review the existing audit criteria and make proposals on how the accreditation can add more value to company members and contractors. A revised audit programme addressing safety, quality and environmental aspects of rental operations and providing a means for accreditation to Safety Systems in Procurement was presented to members in November, and was unanimously approved.

A decision by the UK council to implement minimum membership requirements for UK Rental members of IPAF means the proposed revision to the IPAF Rental+ accreditation has been referred back to the committee for further consideration. It is expected that the launch of the revised programme will be delivered in 2017.

The International Mast Climbing Work Platform (MCWP) Committee focused on MCWP training activities in 2016. IPAF's MCWP Operator course was launched successfully in the UK in March 2016 after a trial in 2015. The new manual and forms were released to UK training centres on 22 March, when the first MCWP Professional Development seminar was held at IPAF HQ in the UK, with ten instructors present (pictured below).

Members of this committee and the IPAF technical department are also participating in a working group for the revision of the code of practice for the installation, maintenance, thorough examination and safe use of MCWPs. Draft BS 7981 is available for a two-month public consultation until 31 May 2017, with the work group convening again in June to review feedback from the consultation. Given the positive developments in MCWP issues, IPAF will appoint a MCWP Representative for 2017 to further enhance services and activity in this sector.

ELEVATE

IPAF has grown substantially in the past five years. In 2016, the board recommended a review of our structure and processes, to offer a better service to members while allowing IPAF employees to cope more effectively with the extra demands of the steadily increasing membership and global reach of the organisation.

IPAF appointed UNIPART Rail's Expert Practices division, with consultant Sam Bussey joining the UK-based IPAF head office team several days a week to develop Elevate, which is an acronym for Empowering Learning through Efficient, Value-Added Team Engagement. Using Lean Management continuous improvement principles, Elevate prioritised talking to as many individuals across IPAF as possible, to find out what demands the business was placing on employees, and how key processes might be streamlined.

As part of this process three Lean Champions were identified from across the IPAF head office team, and regular workshops took place looking at multiple aspects of the way IPAF does business. The first focus was on the PAL Card production process and the issuing

of training certificates; this was completed and an improved process implemented by the end of 2016, with results showing immediately and continuing into 2017.

By applying the same principles, the Elevate project should be applicable to all areas of IPAF's activities and will require less support from outside the organisation as the internal Lean Champions become more experienced and pass successive levels of accreditation.

"As well as looking at business performance, the Elevate project also looks at day-to-day processes, internal communications and our workplace environment, including health and safety issues," says Tim Whiteman, CEO of IPAF.

There are now daily communications meetings where matters are discussed and performance indicators shared. There are also daily workplace audits, and specific issues concerning the likes of IT support, car parking and events and conferencing activities are reviewed regularly to find creative solutions to problems that affect productivity and performance.

INDUSTRY

There are around 1,170,000 MEWPs in the worldwide rental fleet, up 4% from the previous year, according to IPAF's Powered Access Rental Market Reports in 2016. The UK MEWP fleet size grew to 54,483 and the US MEWP rental fleet expanded by 3% in 2015 to exceed 530,000 units. The MEWP rental market in Germany grew by around 5%, more than all other European countries except Spain, which saw a 7% expansion. The European MEWP rental market was estimated at approximately €2.7bn.

The IPAF Powered Access Rental Market Reports can be purchased or pre-ordered at www.ipaf.org/reports, while the 2017 Market Reports are due for publication in Q2 and can also be pre-ordered on the website.

MEMBERSHIP

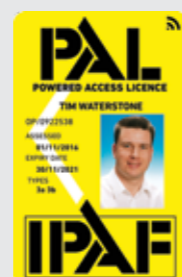

At the end of 2016, IPAF had a total of 1,240 members in 61 countries, with new members in Ecuador, Iceland, Myanmar and Zambia. The total IPAF membership as it stood at year-end showed an annual increase of 6.6% on 2015. There are currently 12 IPAF country/regional councils for: Brazil, India, Ireland, Italy, the Netherlands, North America, Portugal, Singapore, Spain, Switzerland, the UAE and the UK.

SAFETY

The fatal injury rate for MEWPs remained unchanged last year, even though the total MEWP rental fleet and the number of rental days worldwide increased. Out of a total of 192.2 million days' operation of MEWP machines worldwide in 2015, the number of reported MEWP-related fatalities was 68 – a fatal injury rate of 0.035. This was the same as in 2014, when the number of days a machine was operated totalled 182.4 million and there were 64 recorded deaths.

TRAINING

A record number of 158,727 people were trained by IPAF-approved centres in 2016. This was an increase of 10% over the number trained in 2015. IPAF issued a record 150,458 PAL Cards worldwide through its approved training centres in 2016. There are almost 700 IPAF-approved training providers globally and more than 680,000 valid PAL Cards in circulation.

IPAF'S MARKETING AND COMMUNICATIONS

IPAF's marketing and communications team promotes the safe and effective use of powered access, at events and through print, digital and social media.

IPAF participated in nearly 70 events in 2016, including the ARA Rental Show, Vertikal Days, bauma and bauma China. IPAF jointly organises events such as the IPAF Summit and International Awards for Powered Access (IAPAs), as well as the annual Europlatform conference.

Regional IPAF events are increasing, and now include the IPAF Asia Conference and the IPAF Middle East Convention. In addition, IPAF holds Professional Development Seminars for instructors in different countries. The focus at many events during 2016 was the safe loading and unloading of machines, and there was a major campaign to promote the eLearning training module.

Our www.ipaf.org and www.ipaf.com websites saw a 3% increase in unique users and 6% increase in sessions compared to 2015.

New users from Argentina, China, South Korea, UAE and the US increased by over a third.

Our members received IPAF's Raising the Standard newsletter in April and October, and the IPAF Elevating Safety magazine was published in August, with a US print-run of more than 100,000. The Italian-language magazine IPAF-Informa was published in March, and the German-language IPAF-Journal in April. The IPAF Powered Access magazine, featuring a debate on lanyard safety, was published in November both in digital format and a print version with a circulation of around 20,000.

IPAF issued almost 30 press releases in seven languages across 2016, and provided news pages and topical articles to key industry magazines and publications, while the annual IPAF Powered Access Rental Market Reports were published in April.

In terms of social media, the IPAF YouTube channel achieved a total of 72,000 video views and LinkedIn saw a steady rise in followers, reaching nearly 3,000 at the end of 2016. On Twitter, impressions increased by 60% and engagement by 56%, while IPAF posts on Facebook reached more than 4 million feeds, thanks in part to a dedicated campaign in support of eLearning in the US.

IPAF'S AUDITING ACTIVITIES

The IPAF auditing team completed a total of 670 on site audits and over 400 telephone audits around the globe across 2016. In September IPAF again passed the ISO9001 and 18878 external audits, so IPAF continues to comply with these standards. We have also introduced mystery shopper audits of training centres, and have added to our network of auditors.

Current IPAF auditors:

Peter Boeijer, Benelux

Reinhard Sebulke, Germany

Andrea Boldrini, Italy

Kurt von Arx, Switzerland and Germany

Geoff Carr, UK

Andrew Page, UK

Lynn Price, Audit & QC Manager

Chris Smith, UK

Martin Wraith, UK

Diego Navarro, Latin America (Brazil, Argentina, Chile)

Jorge Ramirez, Latin America (Colombia, Peru, Mexico)

Ovais Qureshi, Middle East

Tong Yen Sng, South East Asia

As part of expanding our global audit reach, IPAF continues to explore the possibilities afforded by new technologies that allow us to reach more training centres and deliver snap inspections, audits and unannounced visits, for instance carrying out remote audits by Skype in regions where we have no auditor.

There are several different types of audits that IPAF carries out:

Initial assessments of potential training centres;

Annual audits of IPAF-approved training centres;

Unannounced visits to instructors;

Telephone audits;

IPAF Rental+ audits.

MEMBER BENEFITS

LOBBYING AND REPRESENTATION

IPAF makes representations to relevant authorities on issues of concern to members.

IPAF EXPERTS

IPAF staff collectively have more than 300 years of industry experience from around the world. That expertise is at our members' disposal.

TECHNICAL HOTLINE

IPAF members needing advice on matters ranging from risk assessment to platform use and accident procedures can call IPAF head office or an IPAF country representative.

MEMBERS-ONLY AREA

IPAF members can access the members-only area of the website, which holds meeting minutes, presentations and useful guides.

HIRE TERMS & CONDITIONS

IPAF terms & conditions of hire are available free to members for their exclusive use.

ACCESS INTERNATIONAL

IPAF members get a free subscription to our official magazine, Access International.

MONITORING REGULATIONS AND DEVELOPMENTS

IPAF actively participates in many committees around the world, such as EN 280, ISO, FEM, ANSI standards committees, and the British standards committees BS 8454 and BS 8460. It also represents members in discussions with organisations such as the American Rental Association (ARA), the European Rental Association (ERA) and the Scaffold & Access Industry Association (SAIA).

IPAF RENTAL REPORTS

IPAF members have the opportunity to contribute to and obtain research reports on the rental sector at a discounted rate.

IPAF SPONSORSHIP OPPORTUNITIES

IPAF members can make use of unique advertising and sponsorship opportunities only available to them through IPAF publications and events.

CONFERENCES

Various events are offered at a discounted rate for members, including Europlatform, the IPAF US Convention, TABS, the IPAF Asia Conference, regional meetings and more.

MEMBERSHIP SERVICES

TRANSLATION

IPAF members get preferential rates from CLS 4-Text, our recommended translation agency.

CONSTRUCTION NEWS

IPAF members get a 20% discount off subscriptions to the UK weekly magazine Construction News, giving them a saving of over £40 off the news stand price.

TECHNICAL SPECIFICATIONS

IPAF member rental companies can make use of a service from Verhuurnet that allows them to present the technical specifications of their fleet in a standardised format for easy comparison, with their company logo and branding.

MARKET OVERVIEW GUIDES

IPAF members enjoy special prices when purchasing guides from Lectura that offer an overview and valuation of all common second-hand mobile machines on the European market. The guides also give the IPAF training category of every model listed.

MARKETING TOOLS

IPAF members who adopt the IPAF news widget on their website will receive a constant free feed of industry news.

ATTORNEY SERVICE

IPAF members get a discounted fee rate from US-based full-service civil law firm Bobo, Ciotoli, Bocchino, White & Buigas, PA.

LEGAL CONSULTING SERVICE

Members can turn to a legal and technical service offered by Italy-based Lext Consulting. The question-and-answer service exclusively for IPAF members covers straightforward legal and technical matters with regards to safety at work in Italy.

BUSINESS INFORMATION

The Business Information Service from the Institute of Directors (IoD) is free to all IPAF members and offers up to 30 minutes of desk research by experienced professionals on any subject related to business.

EQUIPMENT RENTALS INSURANCE

JCB Insurance Hiremax is an insurance offer specifically designed for rental companies, with reduced rates for IPAF and IPAF Rental+ members.

INSURANCE

Henderson Insurance Brokers provide IPAF members in the UK with market-leading cover at reduced premiums.

RENTAL MANAGEMENT SOFTWARE

IPAF members can get a 10% discount on rental management software from inspHire.

BUSINESS-RELATED TRAINING

A dedicated advisor from the CITB-Construction Skills National Specialist Team can provide support to IPAF members in the UK in the provision of business-related training.

TAX REFUNDS

IPAF-approved training centres in the UK can use the service from Rift, which specialises in claiming tax refunds for construction workers, including PAL Card holders.

COURIER AND DELIVERY

UK members can tie in to the 50% discount rate offered to IPAF by TNT couriers.

WEBSITE DESIGN

IPAF members get a 25% discount off website design by SiteWizard, an award-winning company offering fast, cost-effective web solutions with a money-back guarantee.

Details on member benefits are at the Services section of www.ipaf.org

IAPAs shortlist leads off optimistic new year in Powered Access

The shortlist for the 2016 International Awards for Powered Access (IAPAs) is revealed, following the judges' meeting on 28 January in Basel, Switzerland. Jointly organised by Access International and IPAF, the IAPAs celebrate best practice and excellence in the powered access industry. More than 100 entries across 13 award categories were received for the IAPAs 2016.

Clarion call for a safer industry

"Safety protects revenues," is the key message delivered by Jeremy Fish, managing director of Nationwide Platforms, pictured left, to around 300 attendees at the IPAF Summit on 17 March in Madrid, Spain. Mr Fish cites cases of how UK companies were fined a total of £82 million for safety breaches over the five years, with several companies going out of business as a result.

The annual IPAF President's Award is presented to Evelyn Low, IPAF's South East Asia regional manager.

More than 400 professionals gather on 17 March 2016 in Madrid, Spain to recognise and honour the winners of the International Awards for Powered Access (IAPAs). The venue for the following year is announced as London, UK.

IPAF appoints Burcu Ünal as its Turkey representative. Burcu, who takes up post from 1 April, is an occupational health and safety professional and trainer based in Ankara.

The Italian-language magazine IPAF-Informa is published.

MILESTONES IN 2016

JANUARY

MARCH

FEBRUARY

APRIL

IPAF unveils new generation of eLearning tools

IPAF's mobile elevating work platform (MEWP) operator training programme takes a giant leap forward with a new generation of learning tools available from 1 February 2016 in the UK. For the first time, PAL Card trainees have the option of completing the theory part of the course via an interactive, state-of-the-art eLearning module that they can complete online – anytime, anywhere, on any device, at their own pace. Trainees opting for the instructor-led theory course can also benefit from the same state-of-the-art graphics, animations and learning techniques. All trainees must still pass a supervised theory test at an audited and approved training centre.

IPAF campaign for safe loading and unloading gets bauma showcase

IPAF chooses the bauma 2016 show in Munich, Germany, to launch its campaign promoting safe loading and unloading of MEWPs. The IPAF stand offers a demonstration of how to load and unload MEWPs.

IPAF members are invited to comment on the Strategic Forum Plant Safety Group's guidance: Managing the safe condition of MEWPs, while the proposed US ANSI standards are also opened for review.

There are 1,170,000 MEWPs in the global rental fleet, up 4% on 2015, according to IPAF's Powered Access Rental Market Reports.

The fatal injury rate for MEWPs remains unchanged, even though the total rental fleet and number of rental days increased, according to 2015 accident data. Chris Wraith, IPAF Technical & Safety Executive, says: "The industry is working together on a global scale to ensure continual improvement."

The German-language magazine IPAF-Journal is published.

For IPAF events info see www.ipaf.org/events

IPAF issues warning over banners on scissors

IPAF urges organisers and exhibitors at events and festivals not to attach banners to scissor lifts, as this could create a "sail board" effect, which could destabilise the lift and cause it to turn over.

Some scissor lifts are designed for indoor use only at zero wind speed, and those designed for outdoor use may be at risk of being blown over in an elevated position when the maximum safe wind speed is exceeded, the guidance stresses.

More details about IPAF's safety initiatives, technical guidance and training are available at www.ipaf.org/safety

Enthusiastic turnout for IPAF Asia Conference

More than 250 delegates from countries such as China, Malaysia, Taiwan and Vietnam attend the IPAF Asia Conference in Singapore. The two-day educational and networking event features talks, conferences and product showcases.

IPAF publishes safety advice for MEWP use in tree cutting, after IPAF's accident reporting figures show one in five MEWP-related deaths involves tree care workers.

IPAF holds its first joint seminar with the Korean Occupational Safety & Health Agency (KOSHA) on 5 July 2016 at COEX in Seoul, South Korea.

The Loxam Group joins IPAF, giving a boost to the Federation's activities in France and across Europe. In total 11 Loxam companies become IPAF members, adding to subsidiaries in the UK, Ireland and the Netherlands that were already members.

IPAF training gains support in the UAE's capital with the publication of two codes of practice by the Abu Dhabi Occupational Safety and Health Centre (OSHAD).

IPAF offers reassurance over Brexit

The UK's vote to leave the European Union will present challenges, but is expected to have limited effect on the way IPAF works in Europe's various technical committees, Tim Whiteman, IPAF CEO & Managing Director, reassures members. He says: "IPAF remains committed to representing the best interests of its members across Europe and the world. I would like to take this opportunity to reassure members that IPAF intends to continue working closely with all European organisations and will explore ways to maintain and improve the representation and influence of MEWP manufacturers regarding relevant EU legislation and standards."

Visitors to the IPAF stand at Vertikal Days in June enjoy a walk-through display on the safe loading and unloading of MEWPs safe. Andy Access is also on hand to impart take-home safety messages.

IPAF's annual report shortlisted in the Publication of the Year category of the Trade Association Forum (TAF) Best Practice Awards 2016.

IPAF helps launch Singapore MEWP training centre for technical students

Singapore-based access rental company Aver Asia, the Institute of Technical Education (ITE) and IPAF sign a memorandum of understanding (MOU) to establish a joint training centre in ITE College West, providing specialised training in the use of MEWPs. Tim Whiteman, IPAF CEO and Managing Director, is on hand to officially mark the launch of the new training centre, pictured left.

The UK Health & Safety Executive (HSE) announces a review of the requirements in legislation regarding the use of MEWPs, with particular reference to how the regulations support proportionate approaches to work equipment inspection.

IPAF issues a promotional video in support of its MEWPs for Managers one-day course for those who plan, supervise and manage the use of MEWPs in the workplace.

For IPAF events info see www.ipaf.org/events

Europlatform gives voice to 'Generation Rental'

More than 120 access rental professionals attended the 10th Europlatform conference on 22 September 2016 in Vienna, Austria. The theme was 'New Generation Rental' and attendees participated in a "day of exploration and seeing things in different ways", in the words of IPAF president Andy Studdert, pictured left, whose opening presentation 'Toolbox to shoebox' showed how rental companies can continually use technology to meet customers' needs. "Technology is easy, but stay focused on what it is doing to the transactional, tactical and strategic elements of your business," he said.

Jason Woods, its Middle East representative, takes on additional responsibility as IPAF's representative for India.

IPAF members are encouraged to contribute to the European Commission's open public consultation on the ongoing evaluation of the Machinery Directive 2006/42/EC.

Chinese-language training offer

IPAF announces at bauma China that operator training is available at five accredited centres in China and Hong Kong. Andy Access, IPAF's larger-than-life safety champion, is also in attendance to support a poster campaign highlighting typical operator errors and emphasising the importance of quality training.

Kent Boström takes up the new role of IPAF Nordic representative. "The Nordic region is seeing fast-growing demand for IPAF's services," says Tim Whiteman, IPAF CEO.

A new Singapore Standard code of practice for safe use of MEWPs is launched at an event on 15 November. Raymond Wat, IPAF South East Asia Regional General Manager, who sat on the drafting panel and presents a paper at the event, says: "The new standard will help keep the industry safe."

IPAF's Powered Access magazine is published in the UK.

Evelyn Low, IPAF's South East Asia Regional Manager, pictured receiving her President's Award sadly passes away aged 36 after a long illness.

Appointments bolster technical & safety team

IPAF adds two technical officers to its technical and safety department: Harald Fries, pictured far left, an electrical engineer with a background in safety processes and nuclear energy, is based in IPAF's office in Basel; while Rupert Douglas-Jones, pictured left, a seasoned MEWP instructor who has been in the access industry for over 20 years in a variety of management roles, is based in IPAF's UK head office.

Both the new appointees report to IPAF's Technical & Safety Executive Chris Wraith (pictured centre), who says of the hires: "We now have an increased range of experience and knowledge in the technical and safety department, enabling us to offer greater support to members, undertake specific research projects, and influence developments in the market."

Team-building signs off another successful year

The IPAF staff conference at the Lakeside Hotel in Newby Bridge, Cumbria, UK, is a three-day programme of informative talks, meetings and networking events. It's a great opportunity for IPAF's staff and representatives from around the globe to get together, interact with management and board members and engage in team building. Head of Communications Jo Power led her team, left, to team-building glory.

Chris Greenbank, pictured far left, is appointed as IPAF's Digital Marketing Executive at head office in Crooklands, UK. Chris joins the Membership & Communications team tasked with reviewing and updating the IPAF website, managing digital and social media and rolling out eNewsletter and digital marketing campaigns.

IPAF issued a record 150,458 PAL Cards worldwide through its approved training centres in 2016; an increase of almost 10% over the 137,517 PAL Cards issued during 2015.

For IPAF events info see www.ipaf.org/events

FINANCIAL SUMMARY 2016

Demand for IPAF training continued to rise in 2016, boosting revenues and seeing the global network of training centres expand into new countries. Almost 160,000 Pal Cards were issued across the year, with training take-up seeing pronounced growth in the Gulf States, New Zealand and Switzerland. In the UK and Ireland, nearly 10,000 more people completed IPAF training than in 2015.

IPAF's turnover in 2016 increased to £5.6 Million (approximately €6.5m or US\$7m), which represents exceptional growth of 12% compared with 2015. In 2016, revenue from outside the UK increased from 32.2% to 35.6% of the total income. This turnover produced an operating surplus of 4.1% in the year (2015: 3.2%). All surpluses are reinvested, with significant further contribution to the development of the eLearning platform a particular priority.

Membership increased by 6.6% from 1,163 to 1,240 in 2016, and extended IPAF's footprint into 61 countries, including four new countries (Ecuador, Iceland, Myanmar and Zambia). Within Europe, including the UK and Ireland, membership increased by 3.9%, comparing favourably with the 2.3% growth experienced in 2015, while IPAF saw growth in membership numbers from outside Europe of 13.5% (12.2% in 2015). Membership from outside Europe increased as a proportion, from 27.7% of the total in 2015 to 28.1% in 2016.

IPAF-accredited programmes generated significant business for members who offer training courses, and contributed in excess of 85% to the overall turnover of IPAF in 2016, roughly the same proportion of turnover as in 2015.

The number of people undertaking IPAF training rose again during 2016, with 158,727 people successfully completing a course, an increase of 9.4% on 2015 (145,094). There was significant growth in the Gulf Cooperation Council (GCC) area, which comprises UAE, Saudi Arabia, Qatar, Jordan, Kuwait, Lebanon and Oman, where more than 4,000 PAL Cards were issued as opposed to 1,850 in 2015; Switzerland, where the number rose from 5,200 in 2015 to 7,600 last year; and the UK and Ireland, where almost 10,000 more people were trained in 2016 than in 2015.

In New Zealand, IPAF-accredited centres turned out more than 600 trained operators in the year, whereas fewer than 30 were trained there across 2015.

IPAF aims to be a professional and compassionate employer. As a result, IPAF has taken advantage of a change in UK pensions legislation. The success of this review can be seen in the large number of people opting to enrol in advance of the compulsory staging date.

The International Powered Access Federation (IPAF) is a registered Society under the UK's Co-operative and Community Benefit Societies Act 2014, regulated by the UK Financial Conduct Authority. The Act came into force on 1st August 2014, and supersedes the Industrial and Provident Societies Act 1965. IPAF operates as a not-for-profit organisation which is obliged to re-invest all surpluses in furthering the aims of the organisation as defined by the members. The accounts are audited by CLB Coopers Chartered Accountants and are presented at the Annual General Meeting for approval.

“IPAF-accredited training generated significant business for members who offer training courses, and contributed in excess of 85% to the overall turnover of IPAF in 2016”

Andrew Bache, Head of Finance

IPAF's PAL Card production team

If you use one of these,

you need one of these.

IPAF Approved Training Centres train more than 150,000 operators every year in the safe and effective use of powered access platforms.

The IPAF PAL Card is recognised worldwide across industries as proof that your operators have been trained to the highest safety standards and meet all legal requirements.

Find an IPAF approved training centre at
www.ipaf.org

The IPAF operator training programme is certified by TÜV as conforming to ISO 18878.
